## About ABC

ABC is governed by the media industry, for the media industry and is the expert at setting data and process standards across multiple platforms. ABC provides a stamp of trust for media buyers, media owners, publishers and digital traders working in existing and emerging platforms.

The ABC Board consists of 16 media owners, media agencies, advertisers and trade body members – with 25 per cent of the Board representing the digital sector. The Board make strategic decisions as to how ABC is run and each industry sector is represented by a Reporting Standards Group.

ABC was established in the UK in 1931 and is a founder member of the International Federation of ABCs (IFABC). ABC's digital arm was established in 1996 and was united with ABC under one brand with a new identity and integrated structure in March 2011. ABC works with JICWEBS (Joint Industry Committee for Web Standards) to deliver common international standards for measuring digital reach, engagement and loyalty, as well as creating common standards for good practice throughout the industry.

For further information please visit [www.abc.org.uk](http://www.abc.org.uk) or contact us at: ABC, Saxon House, 211 High Street Berkhamsted, Hertfordshire, HP4 1AD, UK Tel: +44 (1442) 870 800 or [info@abc.org.uk](mailto:info@abc.org.uk).

## About this certificate

This certificate was issued on 31 August 2011. The data included is derived from a return of circulation prepared by the publisher: The Barnsley Chronicle Ltd.

The Publisher has certified that the data has been reported in accordance with ABC reporting standards. If an audit or inspection reveals a material difference ABC will revise and re-issue the certificate together with an audit/inspection report detailing the changes. For details of audit or inspection reports issued or the reporting standards and procedures, please contact ABC.

ABC cannot accept responsibility for mistakes or omissions although every care is taken to ensure that the information is correct. This certificate is the **copyright** property of the Publisher and ABC.

This certificate expires on 31 March 2012 unless ABC has issued a new certificate before that date.

---

## Glossary of Terms

### Total Average Net Circulation

This is sometimes referred to as the 'headline' or 'ABC' figure. It is the sum of all circulation types. Sales are broken out by circulation type in the UK, and Republic of Ireland (RoI). Sales outside of the UK and RoI are reported as overseas copies.

### Newstrade, Single Copy and Subscription Sales

Newstrade sales are copies sold to individuals through the normal wholesale/retail distribution system. Also included are other single copy sales of both current and back issues. Sales are reported by price banding which highlights copies sold at basic cover price and those sold at a discount to the basic cover price. Subscription sales are copies individually mailed to persons who have contracted to purchase copies for a given period. Sales are reported by price banding which highlights copies sold at basic annual subscription rate (BAR), and those sold at a discount to the BAR.

### Regular Multiple Copy / Bulk Sales

Regular Multiple Copy Bulk Sales are copies sold in bulk to a third party on a regular and contractual basis and are normally distributed free to the final recipient. For example a newspaper may be sold in bulk to a hotel for free pick up in the hotel. These copies must be sold to the third party at a minimum of 1p or 1 Euro cent per copy. Sales are further analysed by audience type, e.g hotels. The number of copies that may be claimed is capped depending upon the audience type.

### Issue Specific Multiple Copy / Bulk Sales

These are copies sold on an irregular basis and are free to the final recipient. These copies must be sold by the publisher to a third party at a minimum of 10p or 15 Euro cents. Sales per issue are reported. The number of copies that may be claimed is capped depending upon the audience type.

### Special Edition Sales

Special editions are stand alone publications produced to cover a special subject eg, Queen visits town. Special editions can only be sold as single copy sales at full cover price and must comprise at least 25% editorial. The issue, price and sales for each Special Edition are analysed in a specific table.

### Sports Edition Sales

Sports editions are separate editions of the parent newspaper usually published on a Saturday giving results and reports of sporting events.

### Free Pickup Copies

These copies are supplied in bulk to known distribution points and are either left for free pick up or handed out individually. Circulation must be regular in quantity, frequency and types of distribution point. Copies are claimed either as 'net' (copies picked up by end user) or 'capped' where a cap is placed on the numbers claimed based on potential audiences at the distribution point.

### Free Letterbox Delivery

These are copies delivered individually, a single copy through a letterbox. Circulation must be regular in frequency and within a defined area. A set percentage of the circulation is back checked for each issue to prove the circulation claimed.

### Free Requested Delivered Copies

These copies have been personally requested by an individual and have been delivered individually to their address by a third party.

### Editions

All editions of a publication must be reported. Editions that change ROP advertising also have to report an average sale for each edition. Publications that change ROP advertising between editions are identified by having the word 'Series' added to the title's name on ABC data.

### Excluded Issues

A publisher may exclude, at their option, an issue due to certain bank holidays eg, Christmas. A publisher may also exclude an issue from the analysis if the circulation is adversely affected due to either circumstances beyond the publishers control or to a public holiday.

### Digital Editions (Optional)

A digital edition is a facsimile of the print editions. The number of digital editions are not included in the total circulation on page 2, but are reported separately.

### Circulation Percentage paid/free

The percentage of the majority circulation type, paid or free, is reported on the front page. Paid circulation is defined as that purchased by the end user. Newstrade, single copy and subscription sales are defined as paid.
