TRY THE CHIQUE EXPERIENCE

CHIQUE Hair & Beauty Studio is a fresh new salon which has opened in Towngate, Mapplewell.

As well as a full hairdressing service for men and women, Chique offers an exciting range of the latest beauty treatments, including facials to suit all skin types, nail extensions, aromatherapy massage and the revolutionary Flabélos vibrating exercise machine.

As a special welcome to customers, Chique is offering a fantastic 50 per cent discount, which applies to each customer's first hair treatment and first beauty treatment, and includes block bookings.

There is also a customer loyalty scheme.

For face and body treatments, Chique has chosen the Dermatologica range, which uses a special system of face and body mapping to analyse your skin and design a treatment programme specifically for it.

The salon also sells a full range of Dermatologica products and hair products from the Tigi range, specially selected to suit a wide range of images and styles. The Tigi collections include Bed Head, for texture, shape and definition, and S Factor - products adding shine and shimmer for naturally sexy hair.

The Flabélos vibration trainer gives you a ten-minute low-impact workout.

All you have to do is stand on the machine's plate, while the sides vertically alternate.

A block booking of ten workouts costs £22.50 with the 50 per cent discount.

Once a month there will be clinics with nurse practitioner Valerie Ann Brearley, offering advanced injectable treatments for facial lines.

The Chique team is beauty therapist Lindsay, senior stylists Natalie and Kierley and junior stylist Laura.

The salon is open Monday to Saturday, with late-night opening Wednesday to Friday.

TEAM TO PROBE LOAN SHARKS

LOAN sharks and unscrupulous credit companies will be targeted by a new group of investigators working in Barnsley.

The Illegal Money Lending Team will start working across the borough to identify and prosecute loan sharks.

Barnsley Council's Cabinet will meet today to approve the proposal to employ the IMLT.

A report by assistant director Ken Eastwood states: "The remit of the team is to investigate illegal money-lending activity, establish if a problem exists and, if so, bring to justice those persons carrying on this activity."

"The team is made up of highly-experienced investigators with a broad range of backgrounds and investigative skills."

Many of the investigators are ex-police officers or armed services personnel and are trained in specialist surveillance techniques. If they find evidence of wrongdoing they would work with council officers and police to pursue prosecutions.

There is no hard evidence to suggest Barnsley has a significant problem with

illegal money lenders but there is concern many residents are in high-levels of debt.

As the economy deteriorates, many legitimate lenders may become less willing to provide credit and therefore exposing people to criminal lenders.

It is feared those on the lowest incomes or benefits would fall prey to loan sharks charging extortionate interest rates.

To tackle the problem the council will enter into partnership with the Illegal Money Lending Team, which is based in the Midlands and is run by Birmingham City Council.

Ian Guest, of Barnsley Credit Union, welcomed the approach. He said: "It is an excellent development and would be really welcome because the problem is very hidden. I know findings elsewhere have been very shocking."

The team will carry out work in Barnsley on behalf of the council but there will be no additional cost to Barnsley taxpayers as it is funded by the government.
